NORTH-HOLLAND

Subject Index to Volume 18

A

Aging, economic analysis pitfalls with, 157
Agriculture, cost efficiency measurement with behavioral and stochastic cost frontier approach, 271
Alarm systems, social cost benefit analysis of commercial and residential burglar/fire, 49
Australia, exchange rate intervention by Reserve Bank of Australia, 397

B

Budget constraints, macroeconomics in Ukraine and, 643
Buffer stock, modeling demand for money in company sector and, 445

C

Carbon emissions, endogenous technical progress with, 141
Chinese economic reform, Computable General Equilibrium (CGE) model for, 117
CO_2
  direct and indirect inputs in production of goods, 217
  emissions reduction and electric power industry, 343
Cointegration
  dynamic causal chain in macroeconomic activity and, 531
  Japanese import behavior and, 583
  U.S. demand for imports and, 1
Commercial bank asset-choices model, India and household and, 469
Company sector, modeling demand for money in, 445
Computable General Equilibrium (CGE) models
  Chinese economic reform, 117
  MIMIC and negative income tax in a mini-welfare state, 223
  policy modeling under fixed and flexible price regimes and, 495
  sugar quota removal effect on U.S. economy, 117
Consumer markets, saving in quantity-constrained, 561
Consumer price index, natural rate of unemployment and, 203
Contract-enforcement issues, macroeconomics in Ukraine and, 643
Contractionary monetary policy, effects on investment and output, 469
Cost benefit analysis, burglar/fire alarm systems, 49
Cost function, farm cost efficiency measurement with behavioral and stochastic cost frontier approach, 271
Crime prevention, social cost benefit analysis of burglar/fire alarm systems, 49

D

Decomposition, income distribution effects of Swedish 1991 tax reform and, 419
Defense-related industries, import vulnerability, 87
Demographic stability, pitfalls in economic analysis of aging and, 157

Journal of Policy Modeling 18(6):691–693 (1996) 0161-8938/96/$15.00
© Society for Policy Modeling, 1996

Drug traffic, interdiction in international, 233
Dynamic causal chain, macroeconomic activity and, 531

E
Economic analysis of aging, pitfalls in, 157
Economic and Monetary Union (EMU), inflation and interest rates convergence before, 377
Economic reform, Computable General Equilibrium (CGE) model for Chinese, 117
Elasticities, sugar program and different input substitution, 185
Electric power industry, CO_2 emissions reduction policies, 343
Energy
  CO_2 emissions reduction and electric power industry, 343
  direct and indirect inputs in production of goods, 217
Energy intensity, economic policies and reduction of, 141
Energy supply shocks, macroeconomic effects of, 643
Environment, CO_2 emissions reduction and electric power industry, 343
Error correction
  dynamic causal chain in macroeconomic activity and, 531
  U.S. demand for imports and, 1
European Community economy, German unification impact on, 335
Exchange rate, pass-through and the J-curve, 69
Exchange rate intervention, Reserve Bank of Australia and, 397
Export prices, pass-through from exchange rate to, 69

F
Farm efficiency, measurement with behavioral and stochastic cost frontier approach, 271
Fiscal policy strategic analysis, German unification impact on European economy, 335
Fixed price regimes, policy modeling under flexible and, 495
Flexible price regimes, policy modeling under fixed and, 495
Flow of funds model, India and, 469
Foreign dependency, Import vulnerability of defense-related industries and, 87
Forest plans, social choice theory and, 603
Fossil fuel demand, endogenous technical progress in France and, 141
Frontier function, efficiency measurement with behavioral and stochastic cost frontier approach, 271

G
German unification, impact on European economy, 335
Group-decision problem, social choice theory for, 603

H
Household and commercial bank asset-choices model, India and, 469

I
Import behavior, cointegration and Japanese, 583
Import vulnerability, defense-related industries and, 87
Imports, cointegration and error correction in U.S. demand for, 1
Income distribution
  output growth and size, 109
  Swedish 1991 tax reform effects, 419
Income tax, negative, mini-welfare state and, 223
Industrial policy assessment, macroeconomic-industry model for, 289
Inefficiency, measurement with behavioral and stochastic cost frontier approach, 271
Inflation and interest rates convergence, Economic and Monetary Union (EMU) and, 377
Inflationary bias, policymakers' distributional desires and, 109
Input-output analysis, direct and indirect inputs in production of goods, 217
Interdiction, international narcotics trade prevention and, 233
Interest rates, Economic and Monetary Union (EMU) and convergence of inflation and, 377
Intergenerational transfer schemes, time inconsistency of, 157
Intervention, Reserve Bank of Australia and exchange rate, 397

Investment, contractionary monetary policy effects on output and, 469

J

J-curve, exchange rate pass-through and, 69

K

Kalman filter, endogenous technical progress in fossil fuel demand and, 141

L

Labor force composition, aggregate unemployment rate and, 203
Long-run equilibrium, exchange rate intervention by Reserve Bank of Australia and, 397
Long-run import demand model, cointegration analysis with, 583

M

Machine tool industry, macroeconomic-industry model for industrial policy assessment, 289
Macroeconomic activity, dynamic causal chain in, 531
Macroeconomic-industry model, industrial policy assessment with, 289
Modeling demand for money in company sector, 445

N

Narcotics trade, interdiction in international, 233
Negative income tax, mini-welfare state and, 223

O

Output
  contractionary monetary policy effects on investment and, 469
  size income distribution and, 109
Ownership issues, macroeconomics in Ukraine and, 643

P

Pakistan, farm cost efficiency measurement with behavioral and stochastic cost frontier approach, 271
Pass-through, exchange rate to export prices, 69
Policy modeling, fixed and flexible price regimes and, 495
Policymakers' distributional desires, inflationary bias and, 109

S

Savings, quantity constraints and, 561
Shortage, savings under quantity constraints, 561
Sisyphus hypothesis, exchange rate intervention by Reserve Bank of Australia and, 397
Size income distribution, output growth and, 109
Social accounting matrices (SAM), policy modeling under fixed and flexible price regimes and, 495
Social choice theory, U.S.D.A. Forest Service decision making and, 603
Soviet economy, savings under quantity constraints, 561
Stochastic trends, long-run behavior of velocity, 623
Sugar program, effects on U.S. economy, 185

T

Tax, income, mini-welfare state and negative, 223
Tax reform, income distribution effects of Swedish 1991, 419
Two-tier plan-market system, Chinese economic reform and, 117

U

Ukraine, energy supply shocks in, 643
Unemployment, natural rate of, 203

V

Velocity, stochastic trends in long-run behavior of, 623
Voting models, group-decision problem and, 603

W

Welfare state
  aging society and, 157
  negative income tax in mini-, 223
Working hours, direct and indirect inputs in production of goods, 217
